It has not hardwar, been available until the present tire.

To are proposed to longe it to the economy chains it most favorable for their purpose. company finding it most favorable for their purpose. The details of the lease could be dis-cussed in a personal intersion at your letoure. very truly yours,

evere of Conference of Confere

This property is located in Cicero, at the interest of Austin Plvd, and Vent 16th St. (N. Cor.) being a doubt section line corner having a frontage of 93 feet on Austin Blv and 126 on Vent 16th St. Both therefore are arterials or the atrects having four sets of red, green and yellow stop and so signs on the respective corners.

that a complete service station could operate here successfully

Twenty-second street, the main East and West artery through the town, affords little parking space, as well as a continual congested condition of traffic so that many sutcists would profer to come to this losstion for any, or all of the following services:

Gas and Oil Car wash Tires Greasing Batteries Ignition

Ample size of lot would permit a station providing all these facilities if it would be so decired by tenant.

The map included herowith shows that no other station exists on Austin Blvd. for a mile in either direction from this location. No other favorable location is available and probably never will be.

Test 16th St. has a total of 5 stations within the town limits, but would offer practically no compotition for this eite.

The North Test Corner is the preferred location for service stations as is evidenced by its choice in other locations where a choice exists.

Conclusions

The N. V. Corner of Austin Blvd. & W. 16th St. 18 not enly 1/eql in size. Tovorably situated, but also fronts a deap section line corner with two of the town's thru therefore a traverging it from one end to the other. In addition this section the section the section afterding a good related beet trade as well as a buge volume of transient transient.

SAUDE CANAL CONTRACTOR STATES

the corner of Austin Blyd. and 16th St. This Is an count of three day survey (so day) completed fed.

TROCKS NOT ALLOWED ON BLVD.

this gives an hourly grand average of 705 passenger ears and 45 trucks per hour passing the corner of Austin Blvd. A W. 16th St. between the hrs. of 7:00 A.E. and 7:00 P.M. only.

7:30 A.U. to 9:00 A.W. and in the afternoon between 4:30 P.M. and 6:00 P.M.

continues beary until after midnight.

An important factor to note is that Austin Blvd, and Close Age, are the only thru therefores in the term connecting Orden Ave. a Federal Highway, with the Herthern limits of the City of Chicago.

Conclusion: Altho the volume of traffic at Austin Blvd. A less than, let us say Austin Blvd. A 22nd Bt. yet the positioner possibility must be considered greater. 22nd, the East Artery must be considered a one way street due to the width of payament and the 11-kept condition of the street railway track therefore, from the standpoint of transient patronnee this compares favorably, and probably excels any other in the term cleare.

BAUDY BUNIAGE AND THE BUILDING COD

The section of Cicero shown on the map that is bounded by 12th St. on the North, 22nd, St. on the Pouth, 56th Ave. on the East and 62nd Ave. the town's limit, on the Egot is known as the Warren Park District. This is cream of the town for Service station customers. The entire citeriat is built up and consists of residences and two and three story sportment buildings.

The postmeter of Cicero, Dr. E. J. Sheln, reports (Oct. 25, 1955) that 4200 families replay in this area.

The map will show that Austin Blvd. and V. 16th St. is the heart of this desirable section.

Surely 27nd Et. with its mass of traffic and lack of parking facilities would offer no inducement to these residents if a suitable service station existed at Austin Dlws. and . 16th St. for their convenience.

the number and kinds of stations already existing in Gicero it will be noted that only five out of the 74 service stations sell gaseline of inferior quality. This is positive proof that the residents of this community are interested in the best brands of gaseline and cile, and that this community would appreciate and patronise a high grade complete service station.

Conclue tont

It would be unnecessary to stress the wonderful possibilities for neighborhood trade further except to sention that Auntin Blvd. & F. 16th St. is not only the beartof wonderful district in Cicero, but that it is one of the most central thorofore corners of both the torns of Servyn and Cicero.

In a dition to the neighborhood business the transless trade would help to small the total considerably.

SOUTH OF THE CONTROL OF THE CONTROL

of the food of cities.

The U.S Centus I me word that Close Comments are the Popular provided that the Comment of the Comments of the

He later Centue figures are available but the April election 1932 shows 27.033 voters, an increase over any providention. This indicates that the population is increasing contrast to other industrial centers, where populations are diminishing since the start of the degreesion. Further provide an increase is the statement of the Superintendent of High School. Dr. L. Hrunks, who reports a stendily increased enroll pent since 1930.

Tanconger car licences have decreased secondarial althouse are still 10.615 licenses in the town. The licenses trucks total 2013.

There are at present 61 industrial plants in operation within the town's limits employing a total member of Cicero residents of 14,320 with an annual payroll exceeding (12,000,000)

in exition to dicoro's etablity as an industrial conter the nature of the population is an important factor, residents are introly foreign born or of foreign extraction. They come from mose producing frugal, thrifty, hope-owning, family rearing aitizens.

Ded as the banking eltuation is throughout the county Clouro still has three banks that weathered the store with total deposits of \$3.280.977.74 and Capitalization of \$50.000.00 These flauros are as af June 30th, 1933.

Correlies Lond

The foregoing would indicate that this occumity become perfered as extensively in any respect as others bevo in this constitution is the this constitution is the this constitution is the thirty hard working element whose patronage continues in spite of depression and whose future consumption will increase precity at the first sign of prosperity.

ADVENTION AND AND LESSED

at the man time interested in a advertising possibility of the location.

No corner in the town of Clears offers a better opportunity for that purpose than the corner of Augtin Divers a r. 16th. Dt.

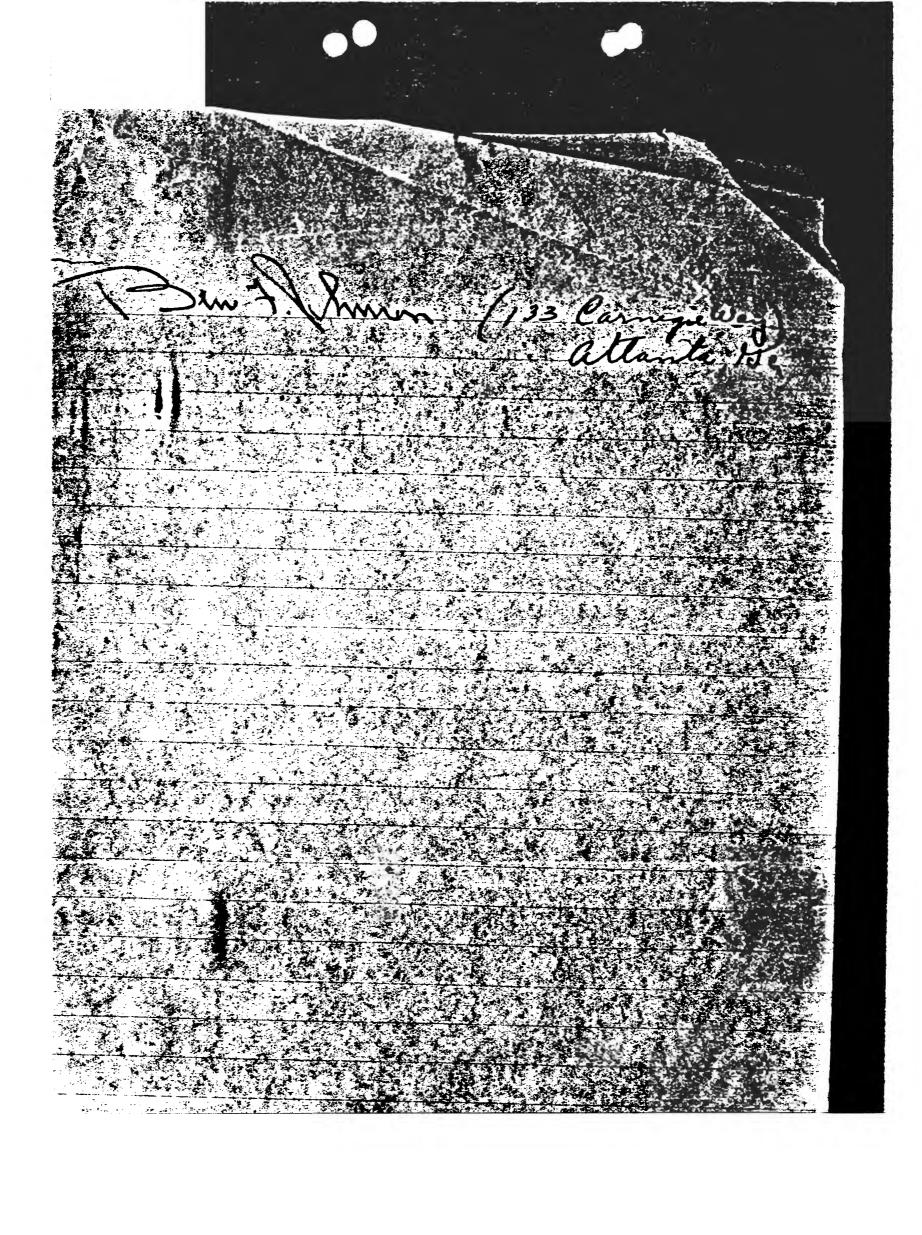

The usual display of billboards and algood laneous solvertising existing along the usual therefores have no place in this vicinity.

Any advertising would be greatly intensified at this dorner, because it would be so sutstanding among the neighborhood surroundings. The electrically operated from and positions give the halting motorists an opportunity for an unobstructed view and would acquaint him with both, the advertised products, as well he the station itself.

Conclusion!

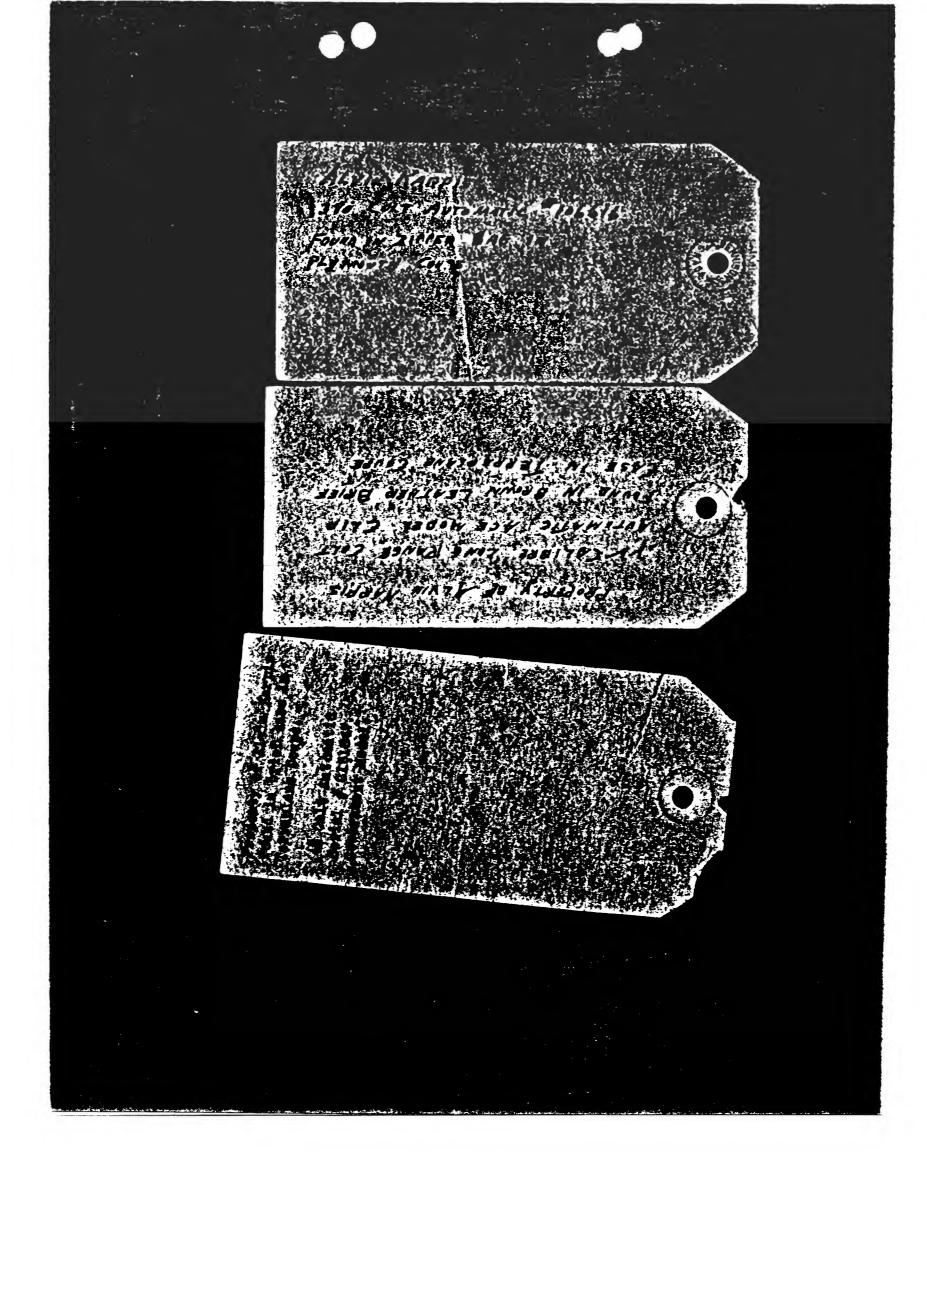

Pocuse of the lack of distractions and obstructions and because of the pronincacof this corner, its value from the standpoint of advertising value alone should be given doe consideration.

Laboratory Report

Case: Brekid

Number: 7-576-

Specimens:

7-576-6334 A. Application for Purchaser's Liquor Permit No. 82240, which bears the signature Alvin Karpis.

B. One receipt signed Alvin Karpis for one pint of liquor.

Examination requested by: Portland Bureau Office.

Date received: 6-15-56

Examination requested: Handwriting and fingerprint

Result of examination:

Examination by: Appel Ingert

Air Mail

Red for funga prints 6/17/35

CC Chicago Cincinnati St. Paul

Compared with fy of alvin Karpis lux no ident.

Compared from The original

FEDERAL BUREAU OF INVESTIGATION U. S. DEPARTMENT OF JUSTICE

Case: BREKID

Number: 7-576-6193

Specimens: One Colt .380 Automatic Pistol #119702 and three .380 Clips.

Examination requested by:

Chicago Bureau Office

Date received:

6-3-35

Examination requested:

Ballistic - Fingerprint

Harr ington

Result of examination:

Examination by: Parsons

Kohn

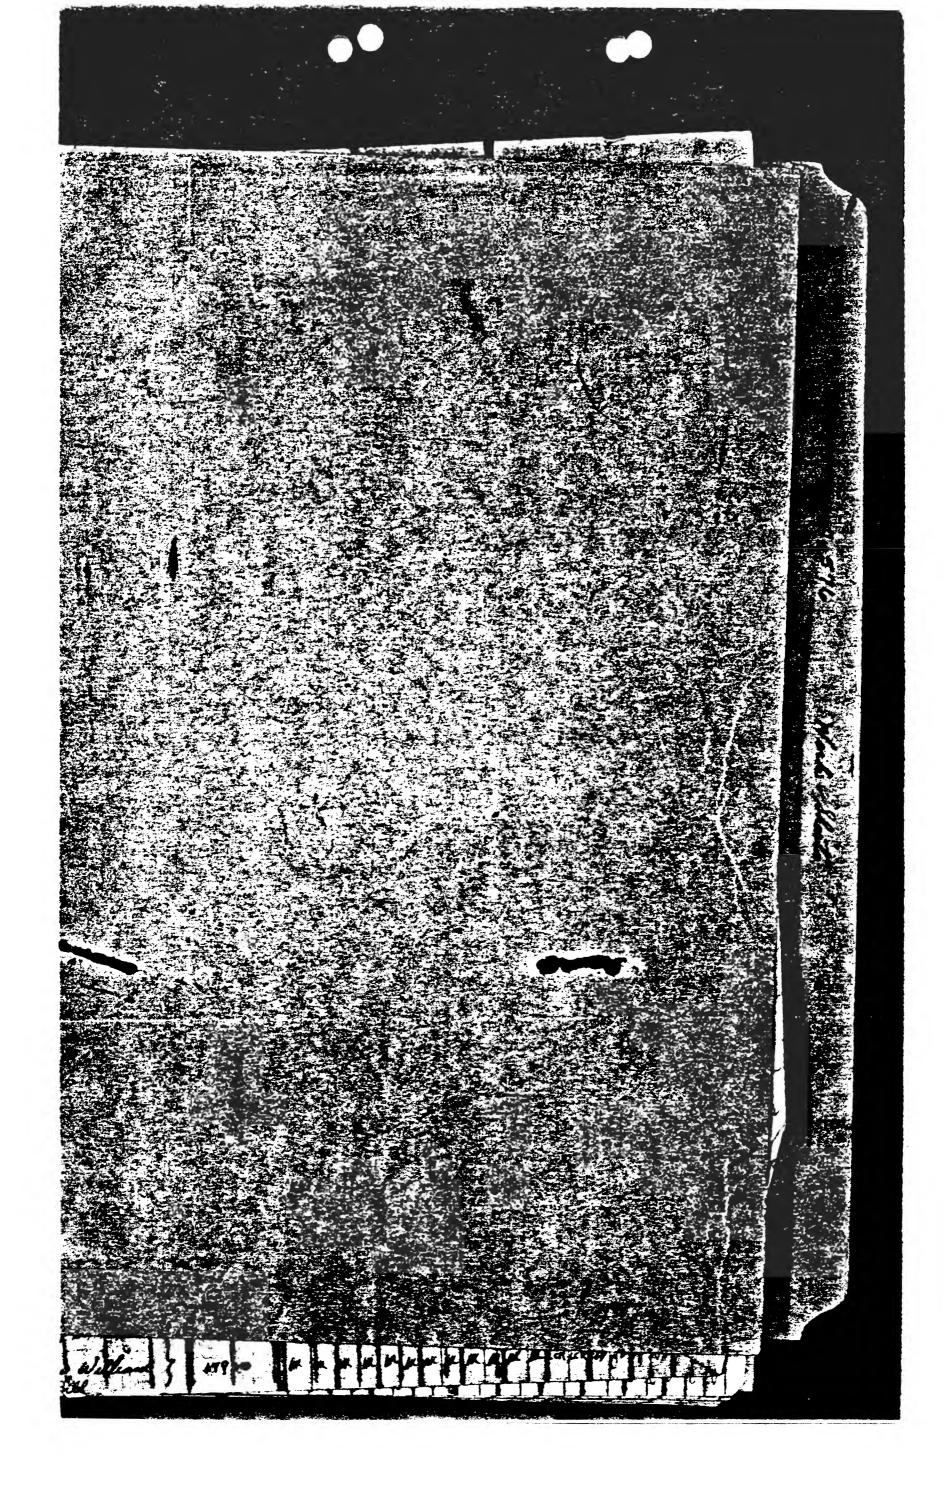

Send copies of Lab. Report to Bureau Offices at St. Paul and Cincinnati.

To photog 6/3/35 Mo latents of value.

Latent Friet Report

St. Paul Prision Office 12: Unknown bulgieto: ledelph Brenze, Su., Victio.

De the letter postmerked Rock Island, Ill. March 6, 1934, sidersed to We ledolph Bremer, In appropriately six prints of value were developed on the envelope and two on the letter, none of which was susceptible of classification and search in the S.F. P. files. In addition, two palmer impressions were developed which would be of value for comparisons with

It is suggested that the finger and palm junto of persons who known to have handled the letter be requested for purposes of elimination.

No futher action will be taken until additional information or evidence is submitted.

had Hohn
